

Field Strength Meter

(DB Meter / RF Level Meter)

AS 950 / 940 / 930 DX

Sharp Vision Field Strength Meter AS 950 is Fully Digital, thereby displays Signal Strength Frequency, Channel number and V/A in Digital Display. It's Memory of 106 Channels at 10 Locations makes it a Topper. It is calibrated on Agilent (HP) Spectrum Analyzer for Accuracy.

Accuracy : $\pm 1.5\text{dB}$

Resolution : 0.2dB

Features:

- **Freq.** 46 ~ 860 MHz (106 channels)
- **Auto Frequency Tuning (AFT)** - AS 950 automatically tunes to the frequency of your modulator, even if it is slightly drifted - an essential feature to get the correct level.
- **Direct V/A Measurement** - On just pressing V/A key-you get aural difference & speaker gives audio for the selected Channel.
- **Direct Slope Measurement** - You can directly measure the Slope of your Cable System by the press of SLOPE key. The slope measurement can be between any 3 Channels of your choice.
- **3 Channels Measurement** - Get level of any 3 Ch. of your choice on a single screen.
- **Favourite Channels** - For quick study of your cable system.
- **Memory of 106 Ch at 10 Locations** - Your Technician can store the signal level of all 106 Channels & PP voltage from 10 different locations in your AS 950.
- **Reverse Path Channels** - Use sub - Converter AS 951 to measure reverse path channels.
- **Continuous Power Pass (PP) Reading**

Other Models:

AS 940:

All the features of AS 950 except the location memory of 106 Ch at '2' locations instead of '10'.

An International Quality Product from **ANALOG SYSTEMS**
